

Welcome to Middle School 6th graders!

For the summer math packet, please do NOT use a calculator, I know the calculator knows how to compute decimals and fractions! I want to know if YOU do!

Show work for each problem! Neatness is a must. If you cannot fit the work on the worksheet, please do the work on loose leaf paper.

On the second day of school, there will be a 100 point test covering 2 questions from each work page.

Any questions, please email me  
[julie.langford@sascolts.org](mailto:julie.langford@sascolts.org)

Thank you!
